

# Accessories

To Enhance Your Power Washing Effectiveness

- Clean Deeper
- Reduce Wash Time and Labor Costs
- Solve Extra-Tough Cleaning Tasks

## Legacy Revolution Rotary Nozzle

A rotating nozzle [A] combines the wider spray pattern of a 25° nozzle [B] with the deep cleaning of a 0° nozzle [C]

For extra-fast and deep cleaning

Our Legacy Revolution Rotary Nozzle cleans faster and deeper

than conventional high-pressure spray nozzles by combining the deep cleaning impact of a 0-degree nozzle with the broad spray pattern of a 25-degree nozzle. With cleaning action that is both deep and wide, wash time and labor costs can be slashed significantly.

## Hose Reels

For tangle-free handling and protection

Hose reels take the muscle and pain out of fighting unyielding high-pressure hoses as well as keeps them safely stored away from traffic. There

are a wide variety of reels, including the popular 360° pivot reel. Various mounting brackets and sockets are available and easily attach to your pressure washer.

## Water Jet Flat Surface Cleaner

For fast, stripe-free cleaning of asphalt or concrete

The Water Jet is the premier surface cleaner on the market attaching easily to a hot- or cold-water pressure washer to “mow” grime. With its infinitely variable rotary bar adjustment, the Water Jet can clean a wide variety of surfaces from concrete to asphalt. The stainless steel spray bar, with two precision spray nozzles, spins at an astounding 2000 RPM.

Its pneumatic tires and leading swivel caster make for easy maneuvering into corners and tight spaces.

The Water Jet attaches to a hot or cold water pressure washer and cleans flat surfaces fast using a water-propelled spray bar that spins at 2000 RPM

## Telescoping Lances

For safe, scaffold-free cleaning of hard-to-reach places

The popular telescoping lances and wands provide safe cleaning capability of up to 24 feet—long enough to reach gutters and eaves on a two-story building—without the need for a ladder or scaffolding. Models come in fiberglass or aluminum so they’re lightweight and evenly balanced. Each is rated for up to 3500 PSI and water temperature of up to 200°F. Additional accessories include a shoulder strap and belt as well as a gutter-cleaning attachment.

Flex wands are ideal for cleaning gutters and eaves

- Three lengths:
- 6 to 12 ft.
  - 6 to 18 ft.
  - 6 to 24 ft.

Telescoping lances offer a safe alternative to pressure washing with a ladder or scaffolding

## Ready-Stack Hose Reel

**Move up to 400' of hose**

Easily manage high-pressure hoses with our new series of accessories. Move up to 400' of hose in place with stackable hose reels and cart. The integrated frame protects the hose and is ready to stack out of the box, saving time and money. Maneuver over obstacles and make cleaning easier with the adjustable hose riser.

*Patent D739,715S and other Patents Pending.*

## Drain Cleaner

**For powerful sewer or pipe flushing**

A jet spray nozzle, attached to the pressure washer and a special hose, creates a pulsating spray that pushes the hose down into the clogged drain or pipe. Some nozzles also rotate for additional agitation and even pipe surface cleaning. A covered, foot-controlled pedal allows for hands-free operation of this accessory.

## Wheel Kits

**For added pressure washer portability**

Many skid or stationary pressure washers can be made portable through the addition of a wheel kit.

All wheel kits have tubed pneumatic tires or top-quality rubber wheels and some feature lockable casters with 360-degree turning action.

## Mobile Cleaning Packages

**For on-site washing operations**

We offer three trailer-mounted wash systems for on-site cleaning. Two single-axle trailers with 200 gallon water tanks, and a double-axle model with a 330 gallon tank. These top-quality packages allow you to customize the trailer to your needs by mixing and matching trailer beds, pressure washers and a wide selection of options and accessories.

*TRV-3500 single-axle trailer shown with options*

*TR-3500 single-axle trailer shown with options*

*TR-6000 double-axle trailer shown with options*

## Industrial Wet Sandblaster

**For dust-free stripping of paint from walls, barnacles from ships, etc.**

For the extra-tough cleaning tasks, wet sandblasting is the dust-free solution. The sandblaster attaches to a hot- or cold-water pressure washer and, using a venturi, mixes in sand or other abrasive media with the high-pressure spray of the power washer to create enough cleaning power to strip paint off concrete or barnacles from a ship's hull. The sandblasting nozzle is made of tungsten carbide for long life. A variety of safety features, including a face shield, come standard with the sandblaster.

## Hose Extensions

**For extending your reach when you need it**

Add flexibility to your cleaning reach with extra lengths of hose including Tuff-Skin™ hose that has proven to be seven times more abrasive resistant than standard high-pressure hose yet is 20% more flexible. Many 2-wire and 1-wire hoses available.

**Distributed by:**

## Foam Nozzles

**For high-density foam and longer detergent dwell time**

A Foam Cannon [A] or Compact Foamer [B] turns your detergent into a high-density, clinging suds with longer dwell time and increased chemical action.
