KRETE OFF

PRODUCT NUMBER 115

PRODUCT DESCRIPTION:

Krete Off Concentrate is a unique formula designed to break the bond of Portland cement, making concrete layers bubble up, neutralizing its ability to stick to surfaces. This product is gentle on painted surfaces, steel, aluminum and glass. Krete Off has the cleaning power of harsher acids without the damaging effects, such as extensive rust, corrosion and paint damage. This product is perfect on everything from concrete mixers to cleaning tools.

KEY POINTS:

- Easy to use.
- 100% Biodegradable
- No harsh mineral acids.
- Safer on employees and environment.
- Easier on equipment.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.

Techsheet Modified on 3/6/2008

PRODUCT INSTRUCTIONS:

Directions:

Trucks and Machinery: Apply Krete Off Concentrate with low pressure or a foam generator. For heavy build-up, use at full strength. For daily washing, dilute up to 10 to 1. After applying product, allow 15 minutes dwell time and then rinse.

Parts & Forms Cleaning: Pour concentrate into a soak tank, insert parts and forms, leave overnight, remove and rinse well.

Dilutions may vary with different cleaning tasks. Try the General Cleaning recommended dilution first; then strengthen or repeat if necessary.
